

Profile of P.S.Narayan

P.S.Narayan is the General Manager and Head – Sustainability Practice at Wipro Ltd. The practice is at the center of driving Wipro's charter for ecological sustainability. While Wipro has always pioneered ecologically positive actions, it has recently launched a formal ecological program that encompasses multiple dimensions – internal operations, community outreach and business investments.

Narayan has more than seventeen years of multi-disciplinary experience in consumer marketing, consulting and business development in enterprise IT, designing and implementing enterprise IT programs and business process transformation. Prior to the current role, Narayan was the global head of Information Systems for Wipro's IT business. Narayan has spent nearly fifteen years of his career with Wipro and around three years in the FMCG sector with Asian Paints. Narayan has a deep passion and interest in ecology, especially driven by the belief that ecological sustainability and business sustainability are closely interconnected. He has been closely involved right from inception in Wipro's sustainability charter which is based on the underlying philosophy that large organizations must take the lead in the battle against and ecological degradation and climate change.
